

REGIONAL ENERGY EFFICIENCY PROGRAM

Business Energy Audit Registration Form

As part of the Regional Energy Efficiency Program*, energy audits are currently being offered to businesses and organisations in the Kimberley or Pilbara regions.

Is my organisation eligible for an energy audit?

Energy audits are being offered to businesses and organisations with a registered ABN and to government agencies. Priority will be given initially to businesses or organisations that own or lease facilities connected to a local electricity network in towns and communities outside WA's main south west electricity grid.

Audits are not available to households, farms or pastoral stations, mining or mineral processing facilities or to facilities with an annual energy use of more than 1,800 MWh.

Further information on eligibility can be found at www.sedo.energy.wa.gov.au. You may also be eligible for further financial assistance to help carry out a more detailed assessment of energy efficiency opportunities and to implement some of the energy saving initiatives identified in your audit.

What's involved?

A specialised energy consultant will visit your workplace to carry out a walk through energy audit at a day and time convenient to you. Audits are expected to commence mid November 2009.

Following the audit, you will receive a report identifying any energy saving opportunities specific to your organisation, including an estimate of costs and the savings achievable. You may also be eligible for further financial assistance to help carry out a more detailed assessment of the energy efficiency opportunities and to implement some of the energy saving initiatives identified in your audit.

The number of available audits is limited and a small fee of \$50 to \$200 may apply, depending on the energy use of your business or organisation.

To **register your interest**, fill out the table below and send it to Sustainable Energy Development Office (SEDO), Level 8, Governor Stirling Tower, 197 St Georges Tce, PERTH, WA 6000 or fax it to 08 9420 5699. Alternatively, completed forms that have been signed and scanned can be emailed to reepenergyaudits@energy.wa.gov.au. Forms must be received by Monday, 2 November 2009.
